Licensees file surrenders of authorizations with the Commission on a voluntary basis. This information is used by Commission staff to issue Public Notices to announce the surrenders of authorization to the general public. The Commission's release of Public Notices is critical to keeping the general public abreast of the licensees' discontinuance of telecommunications services.

Without this collection of information, licensees would be required to submit surrenders of authorizations to the Commission by letter which is more time consuming than submitting such requests to the Commission electronically. In addition, Commission staff would spend an extensive amount of time processing surrenders of authorizations received by letter.

The collection of information saves time for both licensees and Commission staff since they are received in MyIBFS electronically and include only the information that is essential to process the requests in a timely manner. Furthermore, the E-filing module expedites the Commission staff's announcement of surrenders of authorizations via Public Notice.
